TWIST

Join the Revolution!

# Give your day a Twist

08:00

**Good morning!**  
Start your day with Twist!

08:30

**Today is training day!**  
Marta reaches the gym, with Twist hooked in front to move around safely when outside. Hands free.

08:35

**Check-up and set-up**  
With the Klaxon® App you can set the speed and the braking parameters. Check your battery consumption and much more!

09:35

**Fencing training**  
Marta is a fencing athlete. Twist is perfect for her because she can connect and disconnect it in a moment between the matches.

20:30

**Flight to London**  
Twist, stored in its own bag, is extremely practical to carry and can travel by plane with Pietro. Twist is lightweight and ideal to be taken on all your trips!

19:30

**Last-minute shopping**  
Twist is the ideal solution: it is compact and manoeuvrable even in the tightest of indoor environments such as an airport duty-free shop.

18:30

**Emotions are joy**  
Enjoy unforgettable moments as you hold hands with your loved ones at sunset! With Twist you can reach the most romantic places!

16:00

**Playing together**  
Manuel is an unbeatable dad! He spends his free time in exciting speed races with Erika. Twist is agile, practical and fun!

15:30

**In search of a catchy glimpse**  
Massimo is a painter who draws inspiration from the moving colours. With the handlebar Twist goes faster!

11:30

**Coffee break**  
Twist engaged on the front to easily overcome the challenges of the urban routes. Pietro can adjust his speed thanks to the intuitive and ergonomic controller.

# A “thousand” functions Twist!

## Several possibilities of use

Twist engaged on the front for a relaxed and safe outdoor ride. Choose your speed with the Controller and move with your hands free. Connect the handlebar and go fast in total comfort! The rear-mounted Twist is ideal for indoor use.

## Lightweight and manoeuvrable

Twist is agile. It rotates 360° and is ideal for narrow spaces. The integrated ergonomic handle makes it easy to hold and transport. We take care of every detail.

## Quick and easy to connect

Twist can be connected and disconnected in seconds and in total autonomy. Twist is the solution for your independent mobility. Discover a new feeling of freedom without giving up the comfort of moving with your wheelchair.

## Stylish, technological and wireless

Connect your driving system via Bluetooth. Control and select the pre-settings directly from the Klaxon® App. Nothing stands between you and your freedom! Twist is cool and elegant, perfect for moving around in style.

## Safe and secure

Twist is made of high-quality materials and meets the requirements of innovation and technology. It is designed to accompany you at all times in complete safety and durability. Integrated LED lights to live the night!

## Compact and transportable

Explore new destinations with Twist. Discover the pleasure of travelling like never before! Twist is compact and lightweight and can be carried and transported by car, train or plane.

## Suitable for all types of terrain

Twist overcomes everyday obstacles with ease. Manages climbs efficiently. When installed in the front it lifts the wheelchair's front wheels and allows to move on all type of terrain.

## Linking System Klaxon®

The innovative linking system can be mounted on any type of wheelchair, rigid or foldable. Expand the functionality without sacrificing manoeuvrability and lightness.

# Technologies and components

## Travel bag

Practical and indispensable bag for your travels.

## Integrated LED lights

Ensure visibility and safety.

## Foldable handlebar

A handlebar that is practical and easy to carry.

## Controller

A touch of the lever is all it takes to accelerate and to choose a pre-set speed. Just press the button to brake.

## Removable battery

Twist is even lighter and easier to handle thanks to the removable battery.

## Ergonomic handle

Facilitates the engagement and its loading into the various means of transport.

## Klaxon® App

Select your favourite driving pre-sets through your smartphone. Stay connected!
